UNICEF Australia – objectives

UNICEF's global mandate is to protect and improve the lives of children and women in developing countries. We respond to emergencies, engage in long term development and advocate for the rights of women and children.

Our advocacy is built around the United Nations Convention on the Rights of the Child, and aims to change the structures that impinge upon the rights of children and tackles the structures which keep people trapped in extreme poverty.

The vision of UNICEF Australia is to promote and realise the rights of all children in Australia and abroad to survive and thrive, especially the most disadvantaged and excluded. As part of a family of National Committees within the global UNICEF enterprise, UNICEF Australia's primary objective is to raise funds from the private sector for UNICEF programs internationally, and to expand its strategic

engagement with both the private and public sector in advocating to advance child rights as laid out in the Convention of the Rights of the Child.

UNICEF Australia aims to further grow its' contribution through selected channels built around core monthly pledge commitments, a highly visible and vocal presence as the go to agency for child rights, and the pursuit of continual effectiveness and efficiency in its' organisation and culture.

The UNICEF Australia board has also taken the decision to invest in and develop our programs support team and monitoring and evaluation capabilities in order to secure Australian Government ANCP accreditation. By doing this UNICEF Australia hopes to build an ever stronger link between UNICEF's international development work and our staff and supporters, as well as further diversify our revenue streams in order to further support development and humanitarian programs.

Principal activities and results in 2013

Total revenue in 2013 of \$27.1 million (2012: \$24.2 million) reflects the continued generosity and compassion of the Australian public. Of these funds, \$18.5 million (2012: \$13.2 million) was committed to UNICEF programs overseas for the most vulnerable children in our world.

The primary driver for the 12% increase from 2012 has been due to the Australian public's strong support in 2013 to two contrasting emergency situations: that of the Philippines Typhoon Haiyan emergency appeal in November 2013, and the more complex and prolonged Syrian Conflict for which \$4.0 million and \$1.3 million had been raised respectively.

UNICEF Australia continues to invest in its Global Parent pledge supporter base. This investment has been funded through utilisation of UNICEF Australia's own resources as well as grants received from UNICEF Geneva for this purpose. This level of investment was lower in 2013 in comparison to previous years and consequently revenue generated from the program has stayed broadly in line with 2012. UNICEF Australia is still committed to the further development and growth of its Global Parent pledge supporter base and this still remains a core objective of our strategic plan going forward. The projected long term benefits of this investment strategy continue to generate healthy returns which will increase our impact and ensure more children not only survive but thrive.

2013 also saw UNICEF Australia commence the development and implementation of its overseas programs support team. Whilst this is the first step of a longer term strategic objective, it is UNICEF Australia's intention to secure accreditation with the Australian Government and access funding through the Australian NGO Cooperation program (ANCP).

Alongside the Global Parent pledge program, UNICEF Australia continues to raise funds from UNICEF Change for Good, UNICEF Checkout for Children, public appeals, other corporate partnerships, legacies and bequests and Education for Development fundraising activities. We would like to thank all our supporters for their continued support of UNICEF and its work around the world.

Key performance indicators

Key performance indicators include the gross dollar amount remitted to UNICEF for overseas programs as well as the percentage of income that is spent on programs for children and educating the community.

1. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the Australian Committee for UNICEF Limited, which is a not-for-profit entity for the purpose of preparing the financial statements.

(a) Basis of Preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards - Reduced Disclosure Requirements, other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Interpretations and the *Corporations Act 2001*.

Compliance with Australian Accounting Standards – Reduced Disclosure Requirements

The financial statements of UNICEF Australia comply with Australian Accounting Standards – Reduced Disclosure Requirements as issued by the Australian Accounting Standards Board (AASB).

New and amended standards adopted by the Company

None of the new standards and amendments to standards that are mandatory for the first time for the financial year beginning 1 January 2013 affected any of the amounts recognised in the current period or any prior period and are not likely to affect future periods.

Early adoption of standards

The Company has not elected to apply any pronouncements before their operative date in the annual reporting period beginning 1 January 2013.

Historical Cost Convention

These financial statements have been prepared under the historical cost convention.

Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and are based on historical results and other factors, including expectations of future events which are believed to be reasonable under the circumstances. Management has not made significant judgements that could have a material adjustment to the carrying amount of assets and liabilities within the next annual reporting period.

(b) Foreign Currency Translation

(i) Functional and Presentation Currency

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Australian dollars, which is the company's functional and presentation currency.

(ii) *Transactions and Balances*

Foreign currency transactions are translated into Australian currency using the average exchange rates calculated during the month the transactions take place. Foreign currency account balances are revalued on a monthly basis using the exchange rate prevailing at month end. Foreign exchange gains and losses resulting from the monthly revaluation and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in statement of comprehensive income.

(c) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances and duties and taxes paid. Revenue is recognised when the amount of the revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for the major business activities as follows:

(i) *Donations and Gifts*

Donation revenue is recognised when it is received.

(ii) *Greeting Cards and Gifts*

Sales of greeting cards and gifts are recorded when the goods have been dispatched pursuant to a customer order.

(iii) *Legacies and Bequests*

Legacies and bequests are recognised when they are received.

(iv) *Grants*

Grants from the government and other parties are recognised at their fair value where there is a reasonable assurance that the grant will be received and the company will comply with all attached conditions. Grants relating to costs are deferred and recognised in the statement of comprehensive income over the period necessary to match them with the costs that they are intended to compensate.

(v) *Interest Income*

Interest income is recognised on time proportion basis using the effective interest rate method.

(vi) *Donations In-kind*

The group receives donated services such as voluntary help, community service radio and television announcements, and advertising support.

Where the value of the in-kind donation is material and a fair value is reasonably determinable the revenue and corresponding expense are recognised when the in-kind donation is received.

(d) Income Tax

No income tax is payable, as the group has income tax exempt status with the Australian Taxation Office.

(e) Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases (note 11). Payments made under operating leases are charged to statement of comprehensive income in the periods in which they are incurred.

(f) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, and deposits held at call with financial institutions.

(g) Trade Receivables

Trade receivables are recognised initially at fair value and subsequently at fair value less the provision for doubtful debts. Trade receivables are due for settlement no more than 90 days from date of recognition.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for impairment of trade receivables is established when there is objective evidence that the group will not be able to collect all amounts due. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows.

The amount of the provision is recognised in the statement of comprehensive income as an administration expense. When a trade receivable for which a provision had been recognised becomes uncollectible in a subsequent period, it is written off against the provision. Subsequent recoveries of amounts previously written off are credited against administration expenses in the statement of comprehensive income.

(h) Inventories

Greeting cards and gifts are held on consignment from UNICEF Geneva. Gross sales of these cards are recorded in the financial statements as income. All expenses associated with storage, customer delivery, and marketing of the cards are recorded as expenses in the financial statements. The net proceeds of the sales are remitted to UNICEF. As these cards and gifts are held on consignment, cards and gifts on hand have not been recognised in the balance sheet at year end.

(i) Plant & Equipment

Plant and equipment are brought to account at historical cost less, where applicable, any accumulated depreciation or amortisation. These assets are depreciated over their useful lives. The gain or loss on disposal of all fixed assets is determined as the difference between the carrying amount of the asset at the time of disposal and the proceeds of the disposal, and is included in the operating result of the company in the year of disposal.

The rates and basis of depreciation are as follows:

Furniture and Fittings	Diminishing value	20%
Office Equipment	Diminishing value	Between 20 and 50%
Motor Vehicle	Diminishing value	22.5%
Leasehold Improvements	Diminishing value	20%

(j) Other Financial Assets

Other financial assets are classified in the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, and available-for-sale financial assets. The classification depends on the purpose for which the assets were acquired. The company has financial assets falling into the category of fair value through profit or loss, and loans and receivables.

(i) Fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Assets in this category are classified as current assets if they are expected to be settled within 12 months; otherwise they are classified as non-current. Financial assets at fair value through profit or loss are included in Financial Assets in the balance sheet (note 4).

(ii) Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the company provides goods or services directly to a debtor with no intention of selling the receivable. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are included in receivables in the balance sheet (note 5).

Measurement

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Impairment

The company assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that

loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

(k) Trades and Other Payables

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured and usually paid within 30 days of recognition.

(l) Program Funding Payable

Where the company has contracted with an outside entity to undertake an aid project the funds are recorded as income when they are received or receivable (see note(c)(iv)). Where funds have been received from that outside party but have not yet been sent to the implementing agency in the field, those funds are held in bank or bank equivalent deposits. They are taken up as a liability in the balance sheet and are remitted to UNICEF Overseas Programs within six months.

(m) Remittances to UNICEF Overseas Programs

The company strives to remit the maximum percentage of funds received to UNICEF Overseas Programs in accordance with a cooperation agreement. Funds due to UNICEF Overseas Programs under this agreement and which have not yet been remitted at balance date are calculated and accrued as a liability.

(n) Provisions

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the balance sheet date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as an expense.

(o) Employee Benefits

(i) Wages and Salaries, Annual Leave and Sick Leave

Liabilities for wages and salaries, including annual leave expected to be settled within 12 months of the reporting date are recognised in payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

(ii) Long Service Leave

The liability for long service leave is recognised in provisions and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of

service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(iii) *Retirement Benefit Obligations*

All employees of the company are entitled to benefits from superannuation on retirement, death or disability. The company contributes to defined contribution superannuation funds as nominated by the individual employees and these contributions are recognised as an expense as they become payable.
